CIMCO
WHEN RELIABILITY MATTERS

MDM

Manufacturing document management

CIMCO is an industry leading developer of software solutions for Computer Integrated Manufacturing and Industry 4.0. Our software suite includes advanced CNC editors, simulation software, DNC communications software, Manufacturing Data Collection for real-time monitoring and analysis of shop floor productivity, and Manufacturing Data Management for managing, organizing and securely storing production related data.

Since 1991, CIMCO has helped companies worldwide improve their competitive edge by providing reliable software and outstanding on-site assistance. Our network of CAD/CAM/CNC resellers and consultants have sold more than 100,000 licenses worldwide and we hold great pride in continuously supporting and meeting our customers' demands by developing intelligent and competitive solutions.

THE FULL SUITE OF CIMCO SOFTWARE

CIMCO Edit
Full-featured NC editing, simulation and machine communication tool. Powerful add-ons available.

CIMCO DNC-Max
The leading solution for NC program transfers to and from CNC machines. Compatible with machines and files.

CIMCO MDC-Max
Real-time manufacturing data collection. Optimize use of resources, and streamline processes.

CIMCO NC-Base
Organize, manage, and protect part programs and related production documents efficiently.

CIMCO MDM
Complete solution for manufacturing document management. Integrates with CAD/CAM systems from leading vendors.

CIMCO Scheduler
Production scheduling and order tracking solution. Improve delivery times and use of machines and resources.

CIMCO Machine Simulation
Prove-out your NC program on a 3D CNC machine model. Automatic checks for collisions, out of limit moves and more.

CIMCO CNC-Calc
A basic CAD/CAM. Draw 2D geometrical contours and lay out toolpaths for milling and turning machines.

CIMCO Mazatrol Viewer
Enables CIMCO Edit to read, preview and print Mazatrol binary files for both milling and turning.

CIMCO Teachware
E-learning solution that introduces students to working with digital machine tools.

MAIN OFFICES

DENMARK
CIMCO A/S
VERMUNDSGADE 38A
COPENHAGEN, DENMARK

CIMCO
WHEN RELIABILITY MATTERS
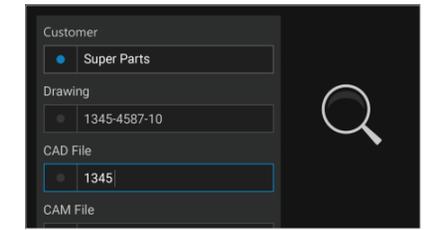

Works with your files

MDM work with your existing file structure in its current location. Effectively adding all the powerful functionality in MDM 'on top' of your existing files.
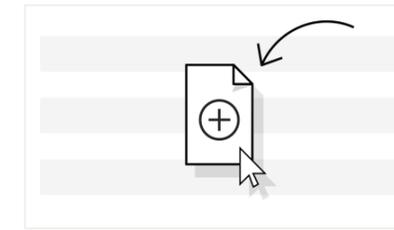

Easy to add files

Drag/drop files to auto-rename and store files in the right location based on your preferences. Incomming files can be placed in the Import Queue for later approval.

Advanced search

Search panel with global and folder specific search fields that change based on selection. Searches with multiple results are listed and can be exported to Excel.

Version control

All documents are kept under version control and automatically raised in version when saved. Browse the version history of any file, compare versions side-by-side, or restore an older version if needed.
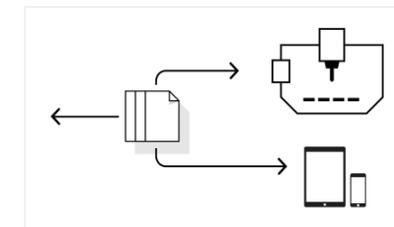

Machine file transfers

DNC support for most network-based machines including the option to remotely request files directly at the machine using the control or MDM Web Client. Thereby not having to leave the machine.
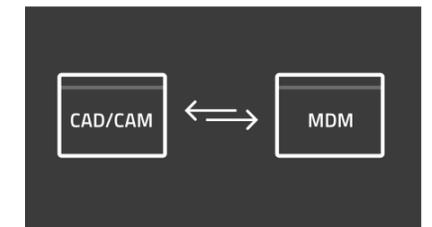

Software, CAD/CAM integration

Integrated with editors, DNC, MDC, and CAD/CAM systems from leading vendors. Preview/open part files directly, exchange tool information, auto-transfer and store generated NC code in MDM.

Logs and user permissions

Logging and fine-grained control over user permissions such as who can add, edit, approve/reject, send/receive, etc. Set permissions for any action including who can send files to certain machines.
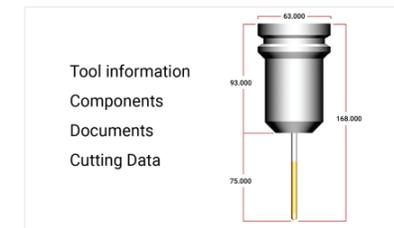

Tool manager

Manage all your tools in one location and exchange tool data across applications. Search, import or create custom tools. Includes tool diagrams with key measurements and usage statistics.

Tool information
Components
Documents
Cutting Data
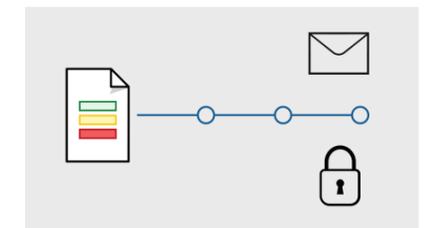

Automated workflows

Trigger custom workflows on actions such as a file changing status. A workflow can be locking a file for approval when modified, sending an email, requesting the fill out of a form, etc.

✓ **Modern Web client for remote access via mobile or tablet**
Access MDM from anywhere using any desktop or mobile device.

✓ **Supports mobile camera**
Photos of machine setup are automatically imported and stored.

✓ **Machine specific Levels**
For safety, restrict folders and file transfers to specific machines.

✓ **Includes CIMCO Edit Standard**
Fully integrated with CIMCO Edit for NC program editing.
